

# Are You Compliant?

Outpak Concrete Washout® unit is designed to be a portable solution for harmful industrial concrete sediment, paint, dry wall mud, stucco, and mortar. With Outpak Concrete Washouts your job site will be organized, eco-friendly, and BMP compliant to avoid costly fines. They are designed for a simple and quick set-up in minutes and can remain for the duration of the project. Outpak Concrete Washout is compatible for both mixer, pump trucks and wheel barrows. Dispose of after evaporation and job completion.

## Easy Setup

## Corrugate Washout

Outpak Corrugate Washout is a Universal, “portable” washout. Good for mixer truck, and wheel barrow washout containment. Dispose of after job completion.

### Setup really couldn't be easier:

Important - For exterior use only. Select an appropriate area to deploy washout. Outside with easy access for mechanical lift (if necessary), where incidental splash out will not harm valuable property is recommended. Limit child access at all times.

Step 1: Unpack the corrugated washout.

Step 2: Unfold the patented design.

Step 3: Cover the interior of washout with the enclosed 6mil poly bag. Fold top of bag over exterior sides of washout.

Setup literally takes seconds!

Tie off top of liner at the end of use to prevent child access to content.

“Keeping your construction projects compliant”
